SKILLS

- **Languages:** C/C++, Java, JavaScript, PHP
- **Frameworks & Libraries:** HTML and CSS, Tailwind CSS, React.js, Node.js, Express.js
- **Tools & Platforms:** MySQL, Git, GitHub, MongoDB Compass, Postman, VS Code, XAMPP, Netlify, Supabase
- **Core CS Fundamentals:** Data Structures and Algorithms (DSA), Operating Systems, Computer Network, OOPs, DBMS
- **Soft Skills:** Problem-Solving, Teamwork, Leadership, Adaptability

WORK EXPERIENCES

Freelancer | FitKart, Begusarai

Nov' 25 – Dec' 25

- Delivered a full-stack e-commerce platform with AI try-on, serving 1,000+ users to explore products, receive size recommendations, and complete purchases seamlessly.
- Implemented secure authentication, real-time order tracking, wish list management, and Stripe-based payments, reducing checkout drop-offs by 35% and improving user engagement by 45%.
- Followed modular architecture and reusable component design to improve scalability and maintainability.

Technologies: React.js, JavaScript, Tailwind CSS, Supabase (Auth & Database), Stripe API, React Query, Netlify, Git

Freelancer | Shanti Brick Field, Kannauj

Jan' 25 – Apr' 25

- Designed a full-stack company website that streamlined product browsing, order placement, and customer communication, improving overall user experience.
- Handled 200+ product entries and reduced manual order processing by 60%, resulting in 40% rise in operational efficiency.
- Scaled on a custom subdomain using shared cPanel hosting, deployed using OCI services.

Technologies: HTML, CSS, JavaScript, jQuery, PHP, MySQL, PHPMailer, OCI.

PROJECTS

Set Intern: AI-Based Smart Internship Allocation Platform | GitHub

Jan' 25 – Apr' 25

- Built a full-stack platform for internship allocation that matched students with opportunities based on their CV, LinkedIn activity, CGPA, and eligibility rules.
- Engineered scalable backend logic in PHP and managed data storage, retrieval, and processing using MySQL.
- Executed ML-driven recommendation models to predict and recommend the most suitable internships for students with an accuracy of 80%.
- Integrated APIs that allowed smooth communication between the platform and the database with 95% reliability.

Technologies: HTML, CSS, JavaScript, PHP, MySQL, ML

Your Grocery Planner | GitHub

Dec' 24 – Feb' 25

- Developed an AI-powered web application for personalized grocery budgeting by using HTML, CSS and JS, assisted users in cutting monthly expenses by up to 25%.
- Added DeepSeek API and Chatbase to deliver interactive chatbot support, handling 1,000+ queries with 95% accuracy.
- Enabled client-side logic for query preprocessing and error handling, reducing user-facing errors by 40%

TRAINING

CodeQuest, LPU – Data Structures and Algorithms using C++

Jun' 25 – Jul' 25

- Strengthened DSA fundamentals in C++ with structures such as arrays, linked lists, stacks, queues, trees, graphs.
- Gained hands-on experience in writing optimized, clean, and modular C++ code, analyzing time and space complexities.

Tech stack: Data Structures and Algorithms, C++

CERTIFICATES

- Cloud Computing, NPTEL | [Link](#) Nov' 25
- React JS Development, GeeksforGeeks | [Link](#) Sep' 25
- Demystifying Networking, NPTEL | [Link](#) Sep' 25
- Oracle Cloud Infrastructure 2025 Certified Foundation Associate, Oracle | [Link](#) Aug' 25

ACHIEVEMENTS

- Obtained rank **1543** of 30.7k+ participants in Weekly Contest 470, LeetCode Oct' 25
- Attained a top 10 rank out of 3.5k+ participants in CODE-A-HUNT hackathon, LPU Mar' 24
- Secured **1st position** in Boxing at the KVS Regional Sports Meet, West Bengal Oct' 19

EDUCATION

Lovely Professional University

Phagwara, Punjab

Bachelor of Technology - Computer Science and Engineering

Aug' 23 – Present
